

GTS
specialist **knowledge** in glass

ANALYSIS & TESTING

INVESTIGATION OF STONE AND CORD

Glass Technology Services Ltd. is an independent laboratory providing a comprehensive range of services related to glass manufacture and use. Our services are provided by experienced, multi-disciplinary staff specialising in all aspects of glass technology. Many of our services are UKAS accredited.

Stone and cord in glass can lead to significant losses in production. Rapid analysis identifies the likely cause minimising production losses. Working closely with the customer GTS can identify the cause of the problem and recommend remedial action. This service is designed for tight production schedules and an express service is available to provide results within a few hours of sample receipt.

This service is carried out using an extensive range of analytical facilities including optical microscopy and scanning electron microscopy (SEM) with microanalysis (EDS) and can be backed up by wet chemical analysis and other analytical techniques.

THE BENEFITS:

- Rapid turnaround
- Glass specialists
- Flexibility

RELATED SERVICES:

- Bubble analysis
- Compositional analysis
- Colour measurement and spectroscopy
- Consultancy

If you would like to know more about these, our other services, or any other aspect of glass technology please contact us or visit our web site.
